

Notification

"Gradus" AD notify about planned investments worth BGN 1,568,536 in subsidiary company "Gradus - 98" AD:

1. "GRADUS-98" AD plan to modernize 11 buildings for raising parent birds. It provides for the purchase of automated nests for collecting and removing breeding eggs. The main goal of the upcoming investment is to ensure the production of quality products at low production costs through the implementation of modern production conditions and the introduction of modern high-efficiency technologies. The current project is part of the implementation of the long-term investment strategy of GRADUS-98 AD for the modernization of the agricultural company.
2. "GRADUS-98" AD - Installation of a photovoltaic power plant to meet the company's own needs. This investment aims at the direct reduction of electricity costs in the farm in Chervena Voda, Ruse, region Ruse.

Part of the funds in the amount of BGN 1 176 402.56 will be provided under the program for the development of rural areas - "Investments in tangible assets".
